This file is a **sample for study reference** from Shri Chakradhar Publication Private Limited (CIN U22213DL2019PTC352185), New Delhi. It is **not for submission** to IGNOU or anywhere else, in whole or in part. We are an independent publisher, not affiliated with or endorsed by IGNOU.

What this file is. A sample of our previous year solved question papers (PDF, Rs 29 per subject paper). It answers questions 2 to 10 of the BEVAE-181 term-end examination of June 2025, as published by IGNOU, with a short reason for each answer. The full product covers the whole paper. Question wording here is condensed; options are as printed.

How it was prepared. Questions taken from the BEVAE-181 June 2025 term-end question paper on ignou.ac.in (objective type, 50 questions of one mark, 2 hours, OMR answer sheet). Answers worked out at our desk; IGNOU does not publish answer keys for this paper. Drafting was AI-assisted; every rule stated was checked against the documents named, and the file is published under the editorial responsibility of BK Sahni, founder. Prepared November 2026.

Your own work stays yours. IGNOU expects original work from every learner. Use this file to see structure and level of detail, then write in your own words from your own course material and your own data.

BEVAE-181, June 2025 term-end examination: questions 2 to 10 solved

2. Which one is not one of the 17 Sustainable Development Goals?

(1) Good health (2) Zero hunger (3) No poverty (4) Social equity and equality

Answer: (4). The goals include No Poverty, Zero Hunger and Good Health and Well-being; "social equity and equality" is not a goal title (the closest are Gender Equality and Reduced Inequalities).

3. Which one is not a decomposer?

(1) Earthworm (2) Fungi (3) Vulture (4) Hawk

Answer: (4) Hawk, a predator. Fungi decompose dead matter; earthworms and vultures feed on dead material.

4. The biosphere extends roughly from:

(1) 11,000 m below the surface to 9,000 m above mean sea level (2) 9,000 m below to 9,000 m above (3) 10,000 m below to 10,000 m above (4) 6,000 m below to 8,000 m above

Answer: (1). From the deepest ocean trenches to high mountain altitudes.

5. Primary consumers occupy which trophic level?

(1) I (2) II (3) III (4) V

Answer: (2) Level II; producers are level I.

6. About what share of Earth's water is fresh water?

(1) About 4% (2) About 3% (3) About 2% (4) About 1%

Answer: (2) About 3 percent; most of it is locked in ice caps and glaciers.

7. A detritus food chain begins with:

(1) Always in the ocean (2) A producer (3) Decaying organic matter (4) Air pollution

Answer: (3) Dead and decaying organic matter.

8. Maple, beech and oak are typical of:

(1) Temperate deciduous forest (2) Temperate evergreen forest (3) Temperate rain forest (4) Coniferous forest

Answer: (1) Temperate deciduous forest.

9. Unattached organisms living at the air-water interface are called:

(1) Plankton (2) Neuston (3) Nekton (4) Periphyton

Answer: (2) Neuston.

10. Which is not a lentic ecosystem?

SAMPLE FOR STUDY REFERENCE NOT FOR SUBMISSION shrichakradhar.com

(1) Lakes (2) Impoundments (3) Wetlands (4) River

Answer: (4) River, which is lotic (flowing water).
